

**FABIOLA GASTRONOMIC GARDEN**  
**A NEW CONCEPT OF SOCIAL GASTRONOMY FOR EVERYONE TO ENJOY**

**Fine food for sharing, bespoke cocktails and original music in a fun urban environment inspired by a wild garden.**

Fabiola Gastronomic Garden is a new concept of social gastronomy and quality entertainment. Mediterranean cuisine for sharing in an evocative setting right in the heart of the city of Palma. An urban haven, with a relaxed atmosphere, and décor inspired by a wild garden, in which to socialise and share enjoyable moments, accompanied by original music. Sophisticated soul and jazz sounds with a Latin touch, a refreshing menu designed for sharing from the middle of the table and a relaxing cocktail bar where you can enjoy "half-cocktails".

Next 19th of September, Fabiola Gastronomic Garden, located on Calle Sant Jaume de Palma, will be opening its doors as the latest project from the IT Mallorca Group, with all its years of experience in the hotel and catering industry. With chef Juan Melis at the helm, the project is blessed with the passion and dedication he feels for his profession. An exciting new venture, where diners can share and enjoy our dishes prepared with top quality ingredients. "Freshly made" lobster salad, our own "bravas" with sobrasada mayonnaise and black garlic alioli, spicy crab, crispy baby squid with "brutesca" sauce, Fish & Chips with tartar Sauce, or rested ribeye steak cooked on a skewer, with béarnaise sauce and crispy potatoes. These are just some of the dishes to be found on our menu, together with original desserts presented in a fun way, such as "The origin of sponge cake".

Our range of cocktails is inspired by the classics offering an original option for guests wishing to enjoy our half-measure cocktails. A relaxed, cosmopolitan atmosphere with a stylish, subtle décor inspired by a wild garden, with natural, fine-quality elements such as marble.

An urban haven in Palma, perfect for socialising and sharing enjoyable moments, to the sound of good music. The renowned music producer Sebas Ramís has created the playlist for Fabiola Gastronomic Garden, with soul, jazz and funk sounds, featuring Latin touches, to connect with the guests and involve them in a concept that combines a quality entertainment experience with affordable prices.

An exciting project that we are passionate about and which we want you to experience, because we know that the best things in life taste best when shared.
